

FEEDBACK PROCEDURE

Government Polytechnic Vijayawada: Committed to Improvement Through Feedback

At Government Polytechnic Vijayawada, we are unwavering in our pursuit of excellence. Recognizing the pivotal role that diverse perspectives play in this journey, we actively seek feedback from a wide range of stakeholders, including our esteemed students, dedicated faculty, engaged employers, insightful industry partners, valuable mentees, and supportive parents.

To facilitate this critical exchange, we have devised a comprehensive feedback system that caters to every preference. For those who favor the digital realm, we offer specially designed **Google Forms**, allowing for convenient and immediate input. Those who opt for a more traditional approach can access **paper forms** readily distributed by our experienced Heads of Departments. And for the tech-savvy among us, we provide readily **scannable QR codes**, instantly connecting you to the feedback portal.

Once gathered, every piece of feedback is meticulously analyzed and discussed in the Internal Quality Assurance Cell (IQAC) meeting. This dedicated forum, composed of passionate educators and administrators, thoroughly examines each suggestion and concern. Like expert chefs, they carefully blend these diverse ingredients, crafting concrete action plans that address every point raised.

Department of Technical Education Government Polytechnic Vijayawada

But our commitment extends beyond mere analysis. The Principal/IQAC Coordinator, acting as the architect of improvement, orchestrates the implementation of these action plans. With meticulous attention to detail, they guide and monitor the execution of each initiative, ensuring that your valuable feedback translates into meaningful change.

This continuous cycle of **listening, learning, and acting** is the cornerstone of our growth. We believe that by nurturing an environment where open communication thrives, we can cultivate a thriving institution that benefits not only our students, but the entire community we serve.

Therefore, we invite you, our valued stakeholders, to actively participate in this dialogue. Lend your voice, share your experiences, and help us mold a future that shines brighter each day. Together, let us build a legacy of excellence at Government Polytechnic Vijayawada, a legacy nurtured by the invaluable feedback of those who matter most.
